

How can I make Dr. King's Dream come true?

I can remind our community that Dr. King doesn't want us to be racist to black people. You shouldn't be mean or beat up black people just because they are walking down the street. Think of it this way, if we can beat them up why can't they beat us up? If we make them follow our rules why can't they make us follow their rules? Like Dr. King said we need equal rule for all.

We can make this a better community. If you see someone, even kids being mean to someone, tell someone. We should be nice to anyone no matter what race they are. We should all support equal rules for all. You should always think if you are going to be mean to a black person what would Jesus do?

What would you do if you were mean to a black person, and they were mean to you? You should always treat people how you want to be treated. We should be a non-racist community so hopefully other communities will be like ours. Why can't we all see equally? If we all work together we can be a non-racist community.

You should not be mean to anyone no matter what race they are. We can try not to get tempted by the devil to be racist. As a community we should fight against racism. Don't make African Americans feel scared to walk on the streets or even leave their houses. Remember what Dr. King said, "I have a dream."
